# Protective covers

We offer an appropriate cover solution for almost every collection.

Whether you are looking for an easy way to protect your Manutti furniture from poor weather conditions or for an elegant off-season storage solution, our protective covers will do the trick.

Our soft covers offer the best stain- and water-repelling protection. With handy stay-on straps, our close-fitting covers ensure easy placement and maintenance. In addition, their antifungal properties will prevent mold growth.

## **Polyurethane coated soft covers**

- Welded, not stitched seams (no water infiltration possible)
- Mold and fungal resistant
- Breathable fabric

**In humid conditions, we strongly advise to take off your PCO every 4 to 5 weeks for a few hours (to avoid fungus/molding between PCO and furniture).**

**Manutti does not recommend to use protective covers for teak tops to prevent mold growth.**

# Protective covers

## Furniture

A protective cover is made to fit each separate piece of furniture: it follows the shape so that, even when covered, you still can see the beautiful shape of your Manutti furniture. The protective covers for stackable chairs and 1-seaters fit over 4 stackable chairs and 2 stackable 1-seaters. Go to the collection page for more details and prices.
